# Front-End Developer (Vue.js)

## About the Job

We're looking for a skilled **Front-End Developer** to join our product team.
The ideal candidate has solid experience in developing modern web interfaces, a strong attention to detail, and a passion for building high-quality, maintainable, and scalable applications.

You'll work closely with backend developers, designers, and product managers to deliver intuitive, performant, and visually appealing web experiences.

## Key Responsibilities

- **Develop and maintain frontend applications** using **Vue 3** and **TailwindCSS**, ensuring clean, maintainable, and efficient code.
- **Integrate APIs** (REST and GraphQL) in collaboration with backend developers to ensure seamless data flow.
- **Build reusable components and libraries** to support scalability and consistency across the product.
- **Ensure code quality** through testing and participation in peer reviews.
- **Optimize performance** and user experience with attention to responsiveness and accessibility.
- **Collaborate cross-functionally** with designers and product managers to refine user flows and deliver value quickly.
- **Stay updated** on emerging frontend trends and contribute ideas for continuous improvement.

## Requirements:

- **2–4 years of experience** as a Front-End Developer or in a similar role.

**Vivian S.r.l.**

England UK

- Strong knowledge of **JavaScript** and **TypeScript**.
- Solid hands-on experience with **Vue 3** (Composition API) and **TailwindCSS**.
- Experience in **API integration**, preferably with **GraphQL**.
- Familiarity with modern build tools (**Vite**, **Webpack**) and package management (**npm**, **pnpm**).
- Basic understanding of testing frameworks (**Vitest**, **Jest**, or similar).
- Good knowledge of **responsive design** and attention to UI/UX details.

## Nice to have:

- Experience with **React** or other modern frontend frameworks.
- Familiarity with **monorepo tools** (Turborepo, Lerna).
- Basic understanding of **Docker** and containerized development.
- Experience with **end-to-end testing** tools (Playwright, Cypress).

# Soft Skills:

During the hiring process we will also prioritize the following aspects:
- Adaptation to company culture, openmindedness, professionalism, collaboration, respect;
- Strong analytical and problem-solving skills, with the ability to troubleshoot complex issues;
- Willingness to mentor and guide junior developers, fostering a culture of continuous learning;
- Ability to quickly learn new technologies and adapt to changing project requirements;
- Willingness to learn new ways of working and aptitude for lateral thinking;
- Strong communication and interpersonal skills;
- Flexibility and stress tolerance to meet deadlines.

## Location

The search is open for Milan location.

## Hiring process

Work is serious business and we believe that changing jobs is an important step for a person. We are very careful to identify people who can fit into our business environment.

We want to gather information from candidates and start getting to know people in depth so we don't waste both of our time.

The average hiring process can be between one month and three months long.

This job post is addressed to both sexes, pursuant to Italian laws 903/77 and 125/91, and to people of all ages and all nationalities, pursuant to Italian legislative decrees 215/03 and 216/03.

The interview may be held in both Italian and English.

## About Kleecks

Kleecks is an innovative company in the MartTech space focused on developing a disruptive SaaS product to boost digital marketing.

Founded by marketing and technology experts in 2015, Kleecks was launched in 2019 after four years dedicated to product development.

Kleecks was born from the idea of transforming the way we traditionally manage the value chain of a web project, with the mission to increase the revenue generated by online channels, simplify processes and reduce costs and time to market.

Kleecks has headquarters in London and an operational product research and development office in Milan.

Kleecks has over 150 clients worldwide and works with over 20 partners among leading international digital agencies and consulting firms.
